This provides a total of 7 hours per week attending the RTO premises. Approximately 5 hours each week is allocated to the conduct of training during the learner's attendance. Although, this differs week to week, where students in some weeks will only be completing assessments. Refer to the course program for further details.

## Locations

Classroom training and practical skills training will be delivered at the following locations:

### Classroom Training Site:

19-20 Enterprise  
Ave, Padstow,  
NSW 2211

## Expected duration

The program is designed to be delivered over twenty-four (24) months. UMA College is able to support participants that need additional time.

## Assessment requirements

The assessment is conducted using a combination of realistic workplace tasks, projects, knowledge tests, response to case studies and feedback from supervisors. The following provides a brief explanation of the assessment methods that are to be applied:

**Observation** | The learner is required to demonstrate a range of skills and applied knowledge whilst being observed by the assessor. These tasks typically involve the learner demonstrating their skills in Islamic studies. These tasks will generally involve a discussion between the learner and the assessor immediately after the demonstration to gather further evidence of competency through verbal questioning, posing 'what if' scenarios. Observation assessment will typically be conducted in the classroom or in an Islamic worship setting. Observation assessment will be conducted by a qualified assessor.

**Journal Evidence** | The learner is required to complete a journal for each of the units of competency based on completed activities which reflect requirements of the unit of competency. A journal is suitable for performance evidence and belief-based tasks where evidence gathered solely from knowledge-based questions will not be sufficient enough to deem the learner competent.

**Written Report** | The learner is required to respond to a range of questions and/or case study activities. The learner will research their answers from the issued learning material and other references. Some of these tasks may require the learner to provide a response in the context of their experience.

**Role Play Observation** | The learner is required to participate in various role-plays which are conducted according to specific scenarios in an Islamic worship setting or environment. The learner and others participating in the role-play will be briefed prior to each activity.
